

Webinar invitation

Helping parishes and community groups take climate emergency action: energy and housing

This webinar describes the support available for parishes and community groups that want to address the climate emergency.

Date: 16th June 2022

Time: 4pm - 5.15pm

Speakers will cover:

- 1) Help available for setting up community energy projects, including grants
- 2) Help available for setting up Community Land Trusts to develop affordable zero carbon housing
- 3) An introduction to the Communipower kickstart programme for off gas grid communities
- 4) How Parish Online's new carbon and energy related data layers can help parishes develop net-zero action plans

This webinar is bought to you by the South East New Energy (SENE) and LECSEA projects. South East New Energy (SENE) is a three-year regional support programme focusing on low or zero carbon actions and local economic development.

Our speakers are listed below.

Registration: You can register for the event here: bit.ly/3Nie0kJ

Please block the time out in your diary and we will send you a Teams invite 2 days before the event.

Please share this invitation with any community groups or individuals you feel will be interested.

We looked forward to meeting you on the day.

Programme

- 1) *How Community Energy Service Companies (ESCOs) can help develop community energy projects*

Carole Randall, Essex County Council

- 2) *Using Community Land Trusts to help parishes meet local housing need*

Laura Atkinson, Rural Housing Enabler & Community Led Housing Advisor, Rural Community Council of Essex.

3) *Supporting rural communities to prepare for a future beyond oil heating: The Communipower kickstart programme*

Ollie Pendered, Community Energy South

4) *How Parish Online is helping parishes design and deliver net zero action plans*

Chris Mewse, Parish Online
